Projects

Park Your Tir App
Park Your Tir App ⧉ , still under development but already online, my biggest project so far. It is written on React Js, Node Js and uses Mongo Db. I.d like to take it to React Native which I am learning now, and even put it on production.

Personal Demo App React Native ⧉
• A demo app built with React Native over the Expo server

Courses

Lots of Udemy Course, Scrimba and Google certification
I have been through lots of Udemy courses *where I learned a lot from). I have taken many Google certification course.

Interests

• Docker, Kubernets, Vue Js,
  AWS
